MEMORANDUM FOR HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

FROM: James F. Miller III  
Director

SUBJECT: Administration Legislation for the Second Session  
of the Ninety-Ninth Congress

To meet the President's policy objectives, including his budgetary goals, that require the enactment of substantive legislation, it is important every year for the Administration's legislative proposals to be transmitted to Congress as soon as possible in the congressional session.

This year in particular, with the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings) in operation, early transmittal of proposed legislation needed to support the President's Budget is essential. This will enhance the chances of enactment of the President's budgetary proposals, so that the deficit targets of the Act will be met.

I ask you, therefore, to give personal attention to this matter in your agency and to take steps to assure prompt submission of draft legislative proposals to the Office of Management and Budget for coordination and review under OMB Circular No. A-19. Priority should be given to legislation dealing with entitlement or other mandatory programs and user fees.
